MEGAMAX DELINEATOR CHAIN POST SET

SET OF 6

Protect and Direct for Safer Spaces

pittman[®]

OVERVIEW

The MegaMax Delineator Chain Post Set is a reliable solution for managing crowds and securing public spaces. Constructed from durable plastic, this kit is designed to endure daily use and harsh weather conditions.

With 82' of sturdy chain and six posts, you can easily create an extended barrier tailored to your specific needs. The heavy-duty bases can be filled with sand for added stability, keeping the barrier securely in place even in busy areas or challenging weather.

Reflective panels on each post ensure high visibility, making the barrier noticeable in low-light conditions for enhanced safety. Whether you're guiding pedestrians, securing restricted zones, or marking hazards, the MegaMax Chain Post Set delivers the versatility and durability you need.

PRODUCT FEATURES

- 82' Durable Chain with Six Posts - Creates extended barriers tailored to your needs.
- Heavy-Duty Bases - Fillable with sand for added stability in challenging conditions.
- Reflective Panels - Ensures high visibility, even in low-light environments.
- Weather-Resistant Design - Suitable for outdoor use in various conditions.

TECHNICAL DATA

SPECIFICATION	DETAILS
Material	Polypropylene Copolymer
Color	Red & White
Height	47.24 in
Diameter	4.33 in
Base Diameter	15.75 in
Weight	8.83 lbs (per post) / 53 lbs (per set)
Chain Length	984.24 in

Use Cases Wide range of indoor and outdoor applications including parking lots, warehouses, loading docks, school zones, walkways, and industrial facilities.

HOW IT WORKS

- 1. Assemble the Posts:** Slot the bases down over the post, ensuring then won't separate. Fill with sand if required for extra stability.
- 2. Connect the Chain:** Run the chain through the integrated chain eyes in the posts.
- 3. Position the Posts:** Arrange the posts as required.
