# TERMINAL EXPANDABLE GATE BARRICADE

Expandable Mobile Barrier for Easy Access  
Restriction

**pittman**<sup>®</sup>

## OVERVIEW

The Terminal Expandable Gate Barricade is the ideal solution for quickly blocking off areas and restricting access. Its adjustable width makes it perfect for use in warehouses, airports, and public buildings, providing versatile coverage to meet a variety of needs.

The bright yellow color ensures it is easily visible, while the durable construction and integrated brakes on the castor wheels deliver stability and safety during use.

For added flexibility, the barrier can be connected to additional units to cover larger areas. When not in use, it folds down compactly, saving valuable storage space. The Terminal Expandable Gate Barricade combines practicality and durability for effective access management.

## PRODUCT FEATURES

- Adjustable Width - Customizable coverage for various spaces and needs.
- Bright Yellow Color - Ensures visibility for improved safety.
- Castor Wheels with Brakes - Provides stability and easy maneuverability.
- Compact Folding Design - Saves storage space when not in use.

# TECHNICAL DATA

SPECIFICATION	DETAILS
Material	Plastic
Color	Yellow & black
Height	39 in
Closed Width	16 in
Expanded Width	140 in
Weight	14.5 lbs
Use Cases	An expandable barrier perfect for blocking off areas or managing access in warehouses, public buildings and a variety of other spaces.

### CASTOR WHEELS

Allowing for easy movement and repositioning

### LINKABLE ENDS

Easily join multiple units together

## HOW IT WORKS

- 1. Expand the Barrier:** To expand, simply unhook the closure clasp and pull the barrier apart. Engage the brake for safety.
- 2. Join Together:** Join multiple units together using the hook and eye system on the barrier.
- 3. Storage:** When finished, simply push the two sides together and secure with the hook.
